MISSION NARRATIVE											
<p>On 21FEB10 SWT received word that 1.4(c) (JTAC) 1.4(c) (GFC) had declared a TIC at approx. 0600L. Reported position was 41S QS 3735 6631. Actual enemy composition was unknown at the time of launch. SWT departed TK at 0615L. Initial contact was with 1.4(c) (JTAC) at FOB COBRA at approx. 0630L. 1.4(c) (JTAC) was already in coms with a predator 1.4(c) and an F-15 flight c/s DUDE. SWT was instructed to remain south as 1.4(c) (FC) did not want to have aircraft in audible range at this time. Initial talk was of 35-50 military age males and three vehicles just north of 1.4(c) (JTAC)'s location. 1.4(c) reported PID of weapons and ICOM indicated insurgents maneuvering on the GI' position. SWT landed at FOB COBRA in order to conserve fuel. As the ground force searched the area the reported finding significant caches to include numerous containers of TIME, approx. 100 sacks of ammonium nitrate, 1000 rmds PKM ammo, radios, and a number of US MBITR batteries. During this time the 3 vehicles began moving south south-west around the ground force and ICOM indicated an attempt to link up with another group to the south IOT to envelope the ground force. Fixed wing assets reported at the vehicles progressed through the following consecutive locations. 41S QS 369 720, QS 356 704, QS 340 700, QS 304 710, QS 274 715. Meanwhile 1.4(c) (JTAC) reported ICOM traffic indicating that the INS could hear the fixed wing aircraft and so he pushed them south. 1.4(c) remained overhead maintaining PID. SWT returned to FARP at TK arriving at 0740L. Upon returning to FOB COBRA SWT again landed to conserve fuel until the situation developed further. At approx. 0840L 1.4(b), 1.4(b) (JTAC) reported the vehicles to be at 41S QS 2327 6519 and continuing to maneuver south of 1.4(c) position one terrain feature to the west. JAG requested that SWT move direct and establish visual contact. 1.4(c) had maintained PID the entire time. SWT gained visual contact at 0850L and contacted 1.4(c) on the 1.4(c) (JTAC) fires net. I described seeing one white Hilux truck followed by two SUVs heading south in a tight formation. 1.4(c) confirmed that these were the vehicles of which he had PID. SWT relayed this information to 1.4(c) (JTAC) who notified his 1.4(c) (GFC). SWT discussed prevailing factors including PID by 1.4(c). Since the movement began and his reports of PID that all occupants were male and carrying weapons. Further, ICOM continued to corroborate this movement as tactical maneuver to the south west of the ground force position. Based upon these factors and the perceived threat to the ground force GFC cleared SWT to engage this threat. SWT established inbound heading approx 210 degrees from 3km away from the target. My aircraft would engage the lead aircraft with our K2A followed by a K2A from trail to the last vehicle. Trail would then fire</p>											

away from the target. My aircraft would engage the lead aircraft with our 12.7's followed by a 12.7 from 700m to the last vehicle. Trail would then fire their remaining N model at the middle vehicle. We delayed momentarily as the vehicles passed a few small trees. At 0900L, my aircraft engage the lead vehicle with a direct hit. Moments later trail followed with a direct hit to the trail. At this point the aircraft had gotten too close for a third missile so both turned outbound to make another pass along the original attack heading. Within a minute the third missile was fired and landed a few feet short of the middle vehicle. It was a few moments' time before we were able to observe this last impact due to obscuration of smoke from the previous strikes. At this time we observed 4-5 personnel just west of the first two vehicles and 2-3 behind the trail vehicle. Both aircraft followed this with another attack with 2.75" rockets. Lead aircraft fired one rocket from 500m impacting right of the lead vehicle and trail fired two rockets from 600m that impacted vicinity the trail vehicle. During our break we observed weapons with the individuals within 5m of the trail vehicle and the individuals 20m west of the road were wearing brightly colored clothing and appeared to be women. As this conflicted with the PID reports of the vehicle we ceased engaging any targets and began to asses BDA, to include photos.

1303L SWT 2 departed TK to conduct BHO with WP 31/45 in attempt to provide continuous coverage for 1.4(c) conducting SSE vic 41S QS 2170 6327. SWT 2 conducted BHO at 1332L. 1.4(c) reported having icom chatter stating that they were being observed by INS. 1.4(c) believed that the icom chatter being intercepted was coming from the INS that fled from the engagement site. 1.4(c) had previously had icom chatter stating to not let the Americans have the "items" from the vehicles that were engaged and that the INS had retrieved "items" and fled the area possibly into the high ground. 1.4(a)														
1.4(c) believed the "items" were weapons and requested that SWT recon the high ground to ensure the friendly position was not attacked. SWT reconed the area until conducting BHO with WP 31/45 at 1425L NSTR. After FARPing SWT conducted BHO with WP 31/45 at 1532L. 1.4(c) was complete with SSE at that time and requested pick up at 1600L. 1.4(c) had spoken with the local village elders who requested that the SWT destroy the remains of the engaged vehicles. SWT informed 1.4(c) that we were unable to destroy the remains. SWT provided LZ recon for PM aircraft and provided coverage for the extraction at 1610L. SWT followed PM to 1.4(c), 1.4(b) drop off point and provided recon and security for 1.4(c) until RTB at 1650L. 1720L EOM.

MISSION NARRATIVE:												
WERE TASKED TO PERFORM DMR DUTIES ON 21FEB2010. THE MISSION INCLUDED DUTCH RIP SUPPORT AND EXECUTION OF THE BLACK RING RESUPPLY FLIGHT DEPARTED TK AT 0855 EN ROUTE TO KAF FOR PASSENGER DROP OFF AND CARGO DROP OFF. FLIGHT ARRIVED AT KAF AT 0952, REFUELED AND WENT TO MIKE RAMP WHERE WE LOADED 16 PAX AND A FULL AIRCRAFT OF BAGGAGE TO GO TO TK. FLIGHT DEPARTED KAF AT 1018 TO RETURN TO KAF. EN ROUTE TO KAF WE MONITORED TRAFFIC THAT THE BAM BAM ELEMENT IN SUPPORT OF THE TIC HAD ENGAGED SUSPECTED INSURGENTS NORTH OF FOB COBRA AND HAD ANALYZED A BDA OF 3 VEHICLES AND 21 FIGHTING AGE MALES. UPON HEARING THIS I AS THE SERIAL COMMANDER CALLED WOLFPAK 71 AND ASKED IF THERE WOULD NEED TO BE AN SSE TEAM TAKEN TO THE SIGHT TO EXPLOIT ANY ENEMY WEAPONS AND TO CONFIRM BDA. WP3 ACKNOWLEDGED THE TRANSMISSION AND THAT WE WOULD BE TASKED TO TAKE A TEAM TO THE ENGAGEMENT SIGHT. WE RETURNED TO TK REFUELED AND ASSUMED REDCON 2 FOR LAUNCH; AFTER 45 MINUTES WE WERE GIVEN A GRID TO PICK UP 20 USSF PERSONNEL TO EXPLOIT THE ENGAGEMENT SIGHT. WE ARRIVED AT THE PZ LOADED PAX AND DEPARTED FOR THE ENGAGEMENT SIGHT; EN ROUTE WE CONFIRMED THE INFIL GRID GIVEN TO US BY 1.4(c) AND PERFORMED A TWO WHEEL LANDING INSERTION OF THE PERSONNEL. AFTER INFIL WE DEPARTED THE AO AND RETURNED TO FOB RIPLEY FOR REFUEL AND STANDBY FOR EXTRACTION. UPON RETURN WE REMAINED AT REDCON 2 FOR A POSSIBLE LAUNCH BUT WERE TASKED AT 1545 TO EXFIL THE SSE TEAM. WE ARRIVED AT THE OBJECTIVE WITH BAM BAM PROVIDING SECURITY AND EXFILLED THE 20 PERSONNEL AND RETURNED THEM TO THE ORIGINAL PZ. UPON ARRIVAL BACK AT TK WE CALLED ZULU AND ENDED THE MISSION. MISSION NARRATIVE											
<p>On 21FEB10 SWT received word that 1.4(c) (JTAC)/FOX 24 (GFC) had declared a TIC at approx. 0600L. Reported position was 41S QS 3735 6631. Actual enemy composition was unknown at the time of launch. SWT departed TK at 0615L. Initial contact was with 1.4(c) (JTAC) at FOB COBRA at approx. 0630L. 1.4(c) (JTAC) was already in coms with a predator 1.4(c) and an F-15 flight c/s DUDE. SWT was instructed to remain south as 1.4(c) GFC did not want to have aircraft in audible range at this time. Initial talk was of 35-50 military age males and three vehicles just north of 1.4(c) (JTAC)'s location. 1.4(c) reported PID of weapons and ICOM indicated insurgents maneuvering on the GF position. SWT landed at FOB 1.4(c) in order to conserve fuel. As the ground force searched the area the reported finding significant caches to include numerous containers of HME, approx. 100 sacks of ammonium nitrate, 1000 rds PKM ammo, radios, and a number of US MBITR batteries. During this time the 3 vehicles began moving south south-west around the ground force and 1.4(c) indicated an attempt to link up with another group to the south IOT to envelope the ground force. Fixed wing assets reported at the vehicles progressed through the following consecutive locations. 41S QS 369 720, QS 356 704, QS 340 700, QS 304 710, QS 274 715. Meanwhile, 1.4(c) (JTAC) reported ICOM traffic indicating that the INS could hear the fixed wing aircraft and so he pushed them south. 1.4(c) remained overhead maintaining PID. SWT returned to FARP at TK arriving at 0740L. Upon returning to FOB 1.4(c), SWT again landed to conserve fuel until the situation developed further. At approx. 0840L 1.4(c) (JTAC) reported the vehicles to be at 41S QS 2327 6519 and continuing to maneuver south of JAGs position one terrain feature to the west. 1.4(c) requested that SWT move direct and establish visual contact. 1.4(c) had maintained PID the entire time. SWT gained visual contact at 0850L and contacted 1.4(c) on the 1.4(c) (JTAC) fires net. I described seeing one white Hilux truck followed by two SUVs heading south in a tight formation. KIRK confirmed that these were the vehicles of which he had PID. SWT relayed this information to 1.4(c) (JTAC) who notified his 1.4(c) (GFC). SWT discussed prevailing factors including PID by 1.4(c) since the movement began and his reports of PID that all occupants were male and carrying weapons. Further, 1.4(a) continued to corroborate this movement as tactical maneuver to the south west of the ground force position. Based upon these factors and the perceived threat to the ground force GFC cleared SWT to engage this threat. SWT established inbound heading approx 210 degrees from 3km away from the target. My aircraft would engage the lead aircraft with our K2A followed by a K2A from trail to the last vehicle. Trail would then fire</p>											

away from the target. My aircraft would engage the lead aircraft with our 12.7s, followed by a 2.75" rocket. At 0900L my aircraft engage the lead vehicle with a direct hit. I, (b)(3), (b)(6), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

On 21FEB10 SWT received word that 1.4(c) had declared a TIC at approx. 0600L. SWT departed TK at 0615L Direct for FOB Cobra. Initial contact was with JAG28 at FOB Cobra. JAG 28/FOX 25 Informed SWT 1 to hold south of FOB 1.4(c) to deconflict with 1.4(c) X Predator and 1.4(c) 2 x F-15. SWT 1 departed FOB 1.4(c) and returned to TK to FARP. SWT 1 departed TK and return to FOB Cobra and contacted 1.4(c) stated that 1.4(c) revealed that INS forces knew fixed wing assets were overhead. 1.4(c) had all aircraft hold at audible stand off. 1.4(c) stated that he they maintained PID on 30-50 AM, armed and traveling in three vehicles. 1.4(c) chatter also stated that individuals in the three vehicles were attempting to maneuver south of JAGS position in order to regroup with more Taliban fighters and conduct an attack on 1.4(c) SWT 1 obtained PID of three vehicles traveling south bound, and confirmed with 1.4(c) that we had acquired the same vehicles that 1.4(c) had been observing for the past hours. SWT 1 Then informed 1.4(c) that SWT 1 had Tally with the 3 x Trucks passed by 1.4(c) GFC declared these personal an immanent threat. 1.4(c) GFC cleared SWT 1 clearance to fire 1 X HELLFIRE per ethical. SWT 1 Engaged front ethical and trail ethical each with 1 x HELLFIRE, with an immediate reattack to the middle ethical with 1 x HELLFIRE. SWT 1 then followed up with 3 rockets at personal fleeing the vehicles. SWT 1 lead aircraft PID 3 X adult males fleeing the ethical wreckage. SWT 1 also observed individuals fleeing the breakage with bright color clothing. SWT 1 then confirmed again with 1.4(c) that targets destroyed was the targets PID with 21 x males and 3 x weapons. SWT 1 then departed station and return to TK to FARP. Enroute to TK SWT 1 conducted a BHO with AWT 1. SWT 1 then was contacted by 1.4(c) 71 in reference to a TIC in vic of Patrol Base Walli. SWT 1 responded to the TIC and then returned to TK. SWT 1 then returned back to FOB Cobra. Upon returning on site, SWT reconned LZ/PZ for SSE/MEDFVAC ops to follow. Conducted another BHO with AWT and RTB. EOM.

I, (b)(3), (b)(6), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

On 21 February 2010 SWT 1 was notified that (b)(3), (b)(6) was in a TIC vicinity of FOB 1.4(c) SWT 1 launched at 0615 and arrived at JAG 25's location at 0640. 1.4(c) informed the SWT that they had located a group of insurgents of about 30 to 60 that were just outside the Bazaar. 1.4(c) stated that SWT maintain well off target while fixed wing and a predator UAV maintained positive identification of the insurgents while they maneuvered south-southwest towards the friendly location. SWT decided to land at FOB Cobra to conserve fuel and to allow 1.4(c) to develop the situation further. SWT broke station to head back to Tarin Kowt for refuel and returned at 0806L. Upon returning SWT was alerted by 1.4(c) that the three vehicles had turned towards the terrain feature to the west and that 1.4(a) was indicating that the vehicles were heading south and they were going to link up with other insurgents and reengage friendly forces. Once again SWT landed at FOB Cobra to conserve fuel while 1.4(c) worked other assets onto the targets. 1.4(c) had originally indicated and had cleared fixed wing platform to engage the target but due to low ceilings and conflicting altitudes with the predator UAV, they were pulled off the target. SWT was then called into the area in order to locate the target and develop the situation further. SWT flew overhead and located three vehicles that were traveling south from 41S QS 2600 6840 on a dirt road that was nowhere near any villages or compounds. SWT confirmed with the predator UAV that the vehicles located were in fact the ones that were seen leaving the bazaar and moving south to regroup with other insurgents. After confirming with the UAV the correct targets SWT was informed by the UAV operator that they had positive identification on all males and weapons in the vehicles. SWT was cleared to engage the three vehicles by 1.4(c) because of 1.4(c) chatter that indicated they were maneuvering to the south and regrouping to reengage friendly forces. SWT advised 1.4(c) that the flight was armed with three hellfire missiles and did not require any ordnance from the UAV platform. Chalk one engaged the lead vehicle with a K2A Hellfire and chalk two engaged vehicle number two and three with a N Hellfire and a K2A respectively. SWT observed armed individuals leaving the rear vehicle and reattacked with three rockets. Once the reattack was completed SWT observed other individuals that were to the west of the vehicles dressed in brightly colored clothing and appeared to be women. SWT gained altitude and observed the area with the sight and reconfirmed with the BDA with the predator UAV before sending it up to 1.4(c). SWT remained on station until relieved by the AWT and returned to Tarin Kowt at 0935L.

9. I, (b)(3), (b)(6), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

I was the Pilot of the lead A/C for SWT1. During our O/T brief we were informed that (b)(6) was TIC north of FOB COBRA. We launched as soon as possible and flew straight to FOB COBRA. Once on station we were told by (b)(6) to hold south of the FOB and let 2xF-15 and (b)(6) (Predator) further develop the situation. JAG requested SWT refuel at TK while (b)(6) was still on station. Upon arriving back on station, (b)(6) stated that ICOM revealed that INS forces knew fixed wing assets were overhead. (b)(6) had all aircraft hold at audible stand off. (b)(6) stated that he had maintained PID on 30-50 armed MAMs, and that he PID approximately 25 armed MAMs traveling in three vehicles south of flank JAGs position. (b)(6) determined based off (b)(6) traffic that the three trucks were attempting to maneuver around (b)(6) position and conduct a coordinated attack from multiple sides. (b)(6) talked us onto the three trucks, SWT described the trucks to (b)(6) and (b)(6) they confirmed that we were looking at the same vehicles/MAMs that they had been watching for the past few hours. (b)(6) declared these personal an imminent threat. GFC called for each truck to be hit with one hellfire each. SWT engaged lead and trail vehicles, with a immediate re-attack on the middle vehicle. SWT moved into engage MAMs fleeing the area with rockets. While inbound I gained PID on at least three MAMs with rifles. At that time, we also saw people in bright clothing. Not knowing who these people were, we held off further engagements. KIRK confirmed that we had engaged the three vehicles that he had PID with only armed MAMs. SWT conducted BHO with AWT and conducted FARP operations at TK. On the way to TK, we overhead (b)(6) confirm our BDA as well as (b)(6) analyst team changing their official stance on the make up of occupants. He also confirmed PID on rifles at this point. Upon returning on site, SWT received LZ/PZ for SSE/MEDEVAC ops to follow. Conducted another BHO with AWT and RTB. EOM.

DRONES / CENTCOM / 522 DIF

LINE ITEM	EXPLANATION
1. Location of Pickup Site.	Encrypt grid coordinates. When using <i>DRYAD Numeral Cipher</i> , the same <i>SET line</i> will be used to encrypt grid zone letters and coordinates. To preclude misunderstanding, a statement is made that grid zone letters are included in the message (unless unit SOP specifies its use at all times).
2. Radio Frequency, Call Sign, Suffix.	Encrypt the frequency of the radio at the pickup site, <i>not</i> a relay frequency. The call sign (and suffix if used) of person to be contacted at the pickup site may be transmitted in the clear.
3. No. of Patients by Precedence.	Report only applicable info & encrypt brevity codes. A = Urgent, B = Urgent-Surg, C = Priority, D = Routine, E = Convenience. (If 2 or more categories reported in same request, insert the word "break" btwn. each category.)
4. Spec Equipment	Encrypt applicable brevity codes. A = None, B = Hoist, C = Extracorporeal equipment, D = Ventilator.
5. No. of Patients by Type.	Report only applicable information and encrypt brevity code. If requesting MEDEVAC for both types, insert the word "break" between the litter entry and ambulatory entry: L + # of Pnt - Litter, A + # of Pnt - Ambul (sitting).
6. Security Pickup Site (Wartime).	N = No enemy troops in area, P = Possibly enemy troops in area (approach with caution), E = Enemy troops in area (approach with caution), X = Enemy troops in area (armed escort required).
6. Number and type of Wound, Injury, Illness (Peacetime).	Specific information regarding patient wounds by type (gunshot or shrapnel). Report serious bleeding, along with patient blood type, if known.
7. Method of Marking Pickup Site.	Encrypt the brevity codes. A = Panels, B = Pyrotechnic signal, C = Smoke Signal, D = None, E = Other.
8. Patient Nationality and Status.	Number of patients in each category need not be transmitted. Encrypt only applicable brevity codes. A = US military, B = US civilian, C = Non-US mil, D = Non-US civilian, E = EPW.
9. NBC Contamination, (Wartime).	Include this line only when applicable. Encrypt the applicable brevity codes. N = nuclear, B = biological, C = chemical.
9. Terrain Description (Peacetime).	Include details of terrain features in and around proposed landing site. If possible, describe the relationship of site to a prominent terrain feature (lake, mountain, lower).
